

VISION HAVERHILL —2035—→

Steering Committee Meeting
November 6, 2019

Agenda for today

Discussion of zoning changes already in the works

- Changes that the city has been considering since before the master plan process

Messaging around scenarios

- Revisions based on steering committee feedback
- Level of detail for public presentation

Tomorrow's Public Workshop #2

- Event schedule
- Preview of boards and stations
- Station volunteers from the Steering Committee

Discussion of zoning changes in “draft 11”

Typical Node – Development Scenario

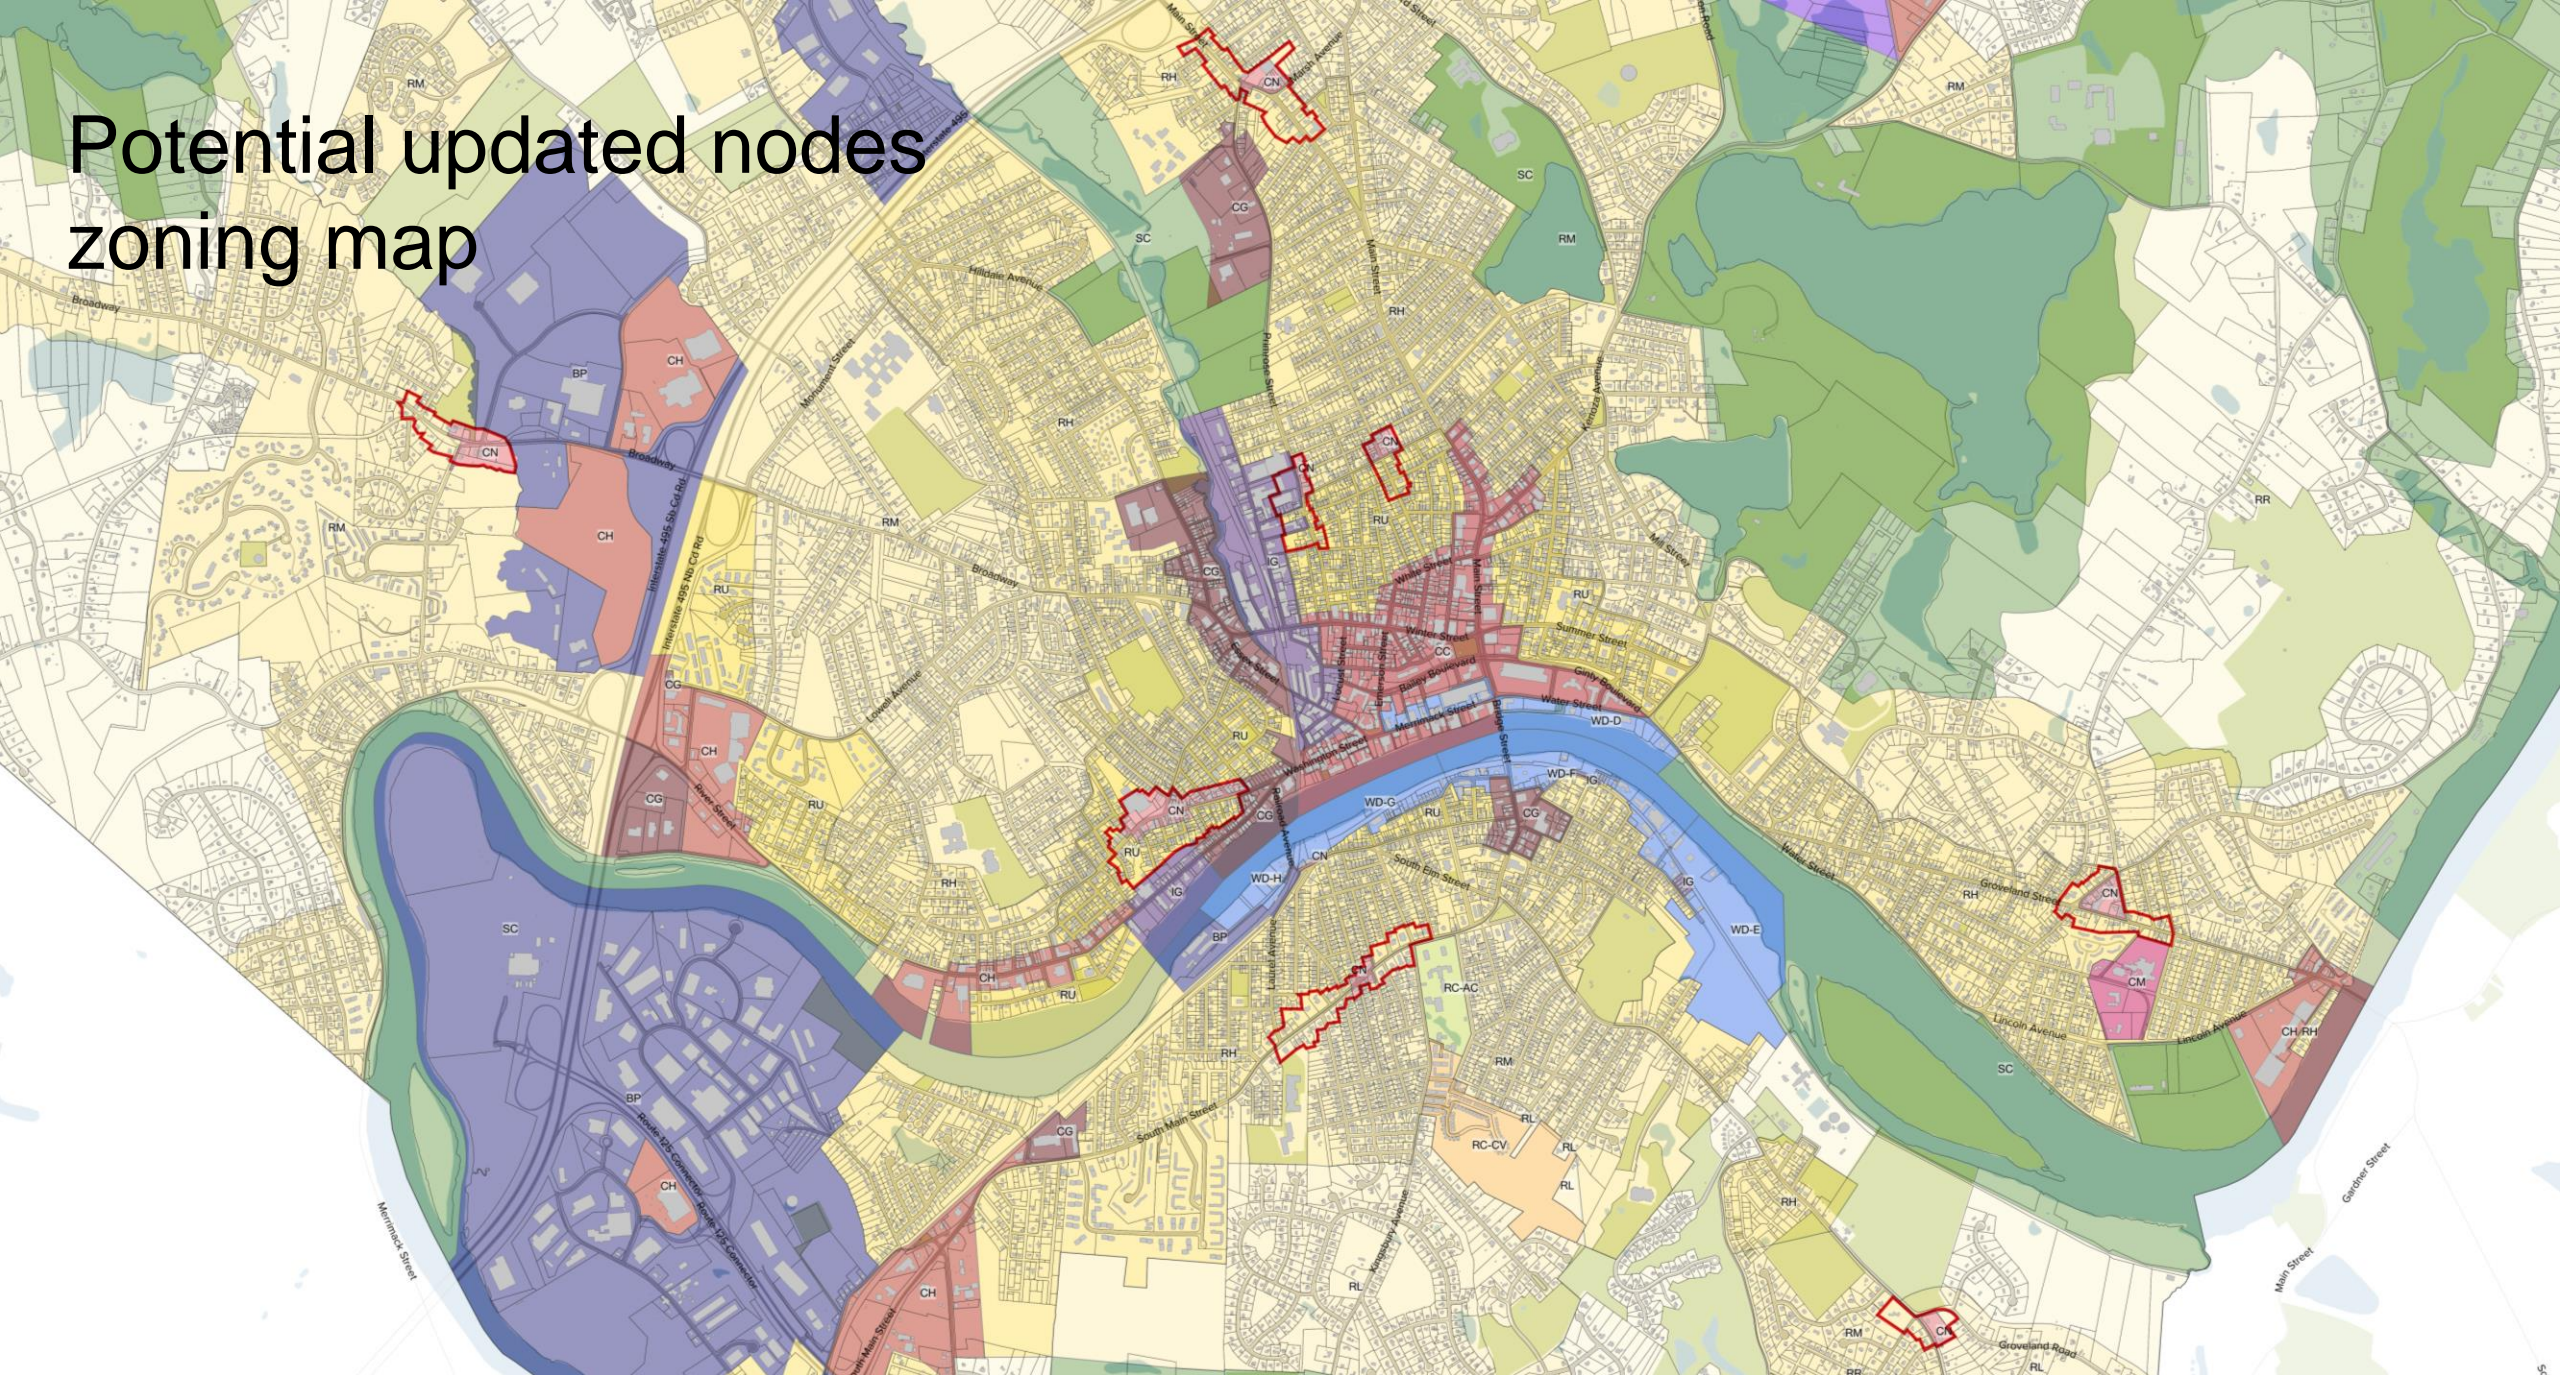

| Node | Count |
|------------------|-----------------------------|
| Front Setback | 10-20 ft. |
| Side Setback | 10 ft. |
| Rear Setback | 20 ft. |
| Height | 3.5 stories |
| Residential Area | 102,050 GSF |
| Retail Area | 31,100 GSF |
| # Dwelling Units | 92 |
| Parking Ratio | 1.5/DU 3/1000 GSF Retail |
| FAR | 0.84 |

Comparative Chart for CN Zoning

| Zoning | Existing | Revised |
|-----------------------------|---------------------------|-------------------------|
| Parking Ratio - Residential | Multifamily Not Permitted | 1.5 spaces/DU |
| Parking Ratio - Commercial | 1 space / 200-300 GSF | 3/1000 GSF |
| Front Setback | 20 ft. | 10 ft. min./20 ft. max. |
| Side Setback | 15 ft | 10 ft. |
| Rear Setback | 30 ft. | 20 ft. |
| Number of Stories | 2.5 stories | 3.5 stories |
| Height | 35 ft. | 45 ft. |
| FAR | 0.5 | 0.85 |

Potential updated nodes zoning map

Generic Small Site - Summary

| Generic Small Site | Industrial Use under Existing Zoning | Scenario A | Scenario B |
|------------------------|--------------------------------------|----------------|---------------|
| Height | 1 story | 4 stories, 75' | 4 stories 75' |
| Total Gross Floor Area | 38,800 gsf | 105,300 gsf | 109,350 gsf |
| Total Parking Spaces | 48 Spaces | 167 Spaces | 169 Spaces |
| Green Space | 20% | 15% | 10% |
| FAR | 0.25 | 0.73 | 0.75 |

Generic Large Site - Summary

| Generic Large Site | Industrial Use under Existing Zoning | Scenario A | Scenario B |
|------------------------|--------------------------------------|----------------|----------------|
| Height | 1 story | 4 stories, 75' | 3 stories, 60' |
| Total Gross Floor Area | 75,800 gsf | 210,600 gsf | 198,450 gsf |
| Total Parking Spaces | 95 Spaces | 331 Spaces | 276 Spaces |
| Green Space | 20% | 20% | 15% |
| FAR | 0.28 | 0.77 | 0.73 |

Ward Hill Test Fits

Test-fit Sites:

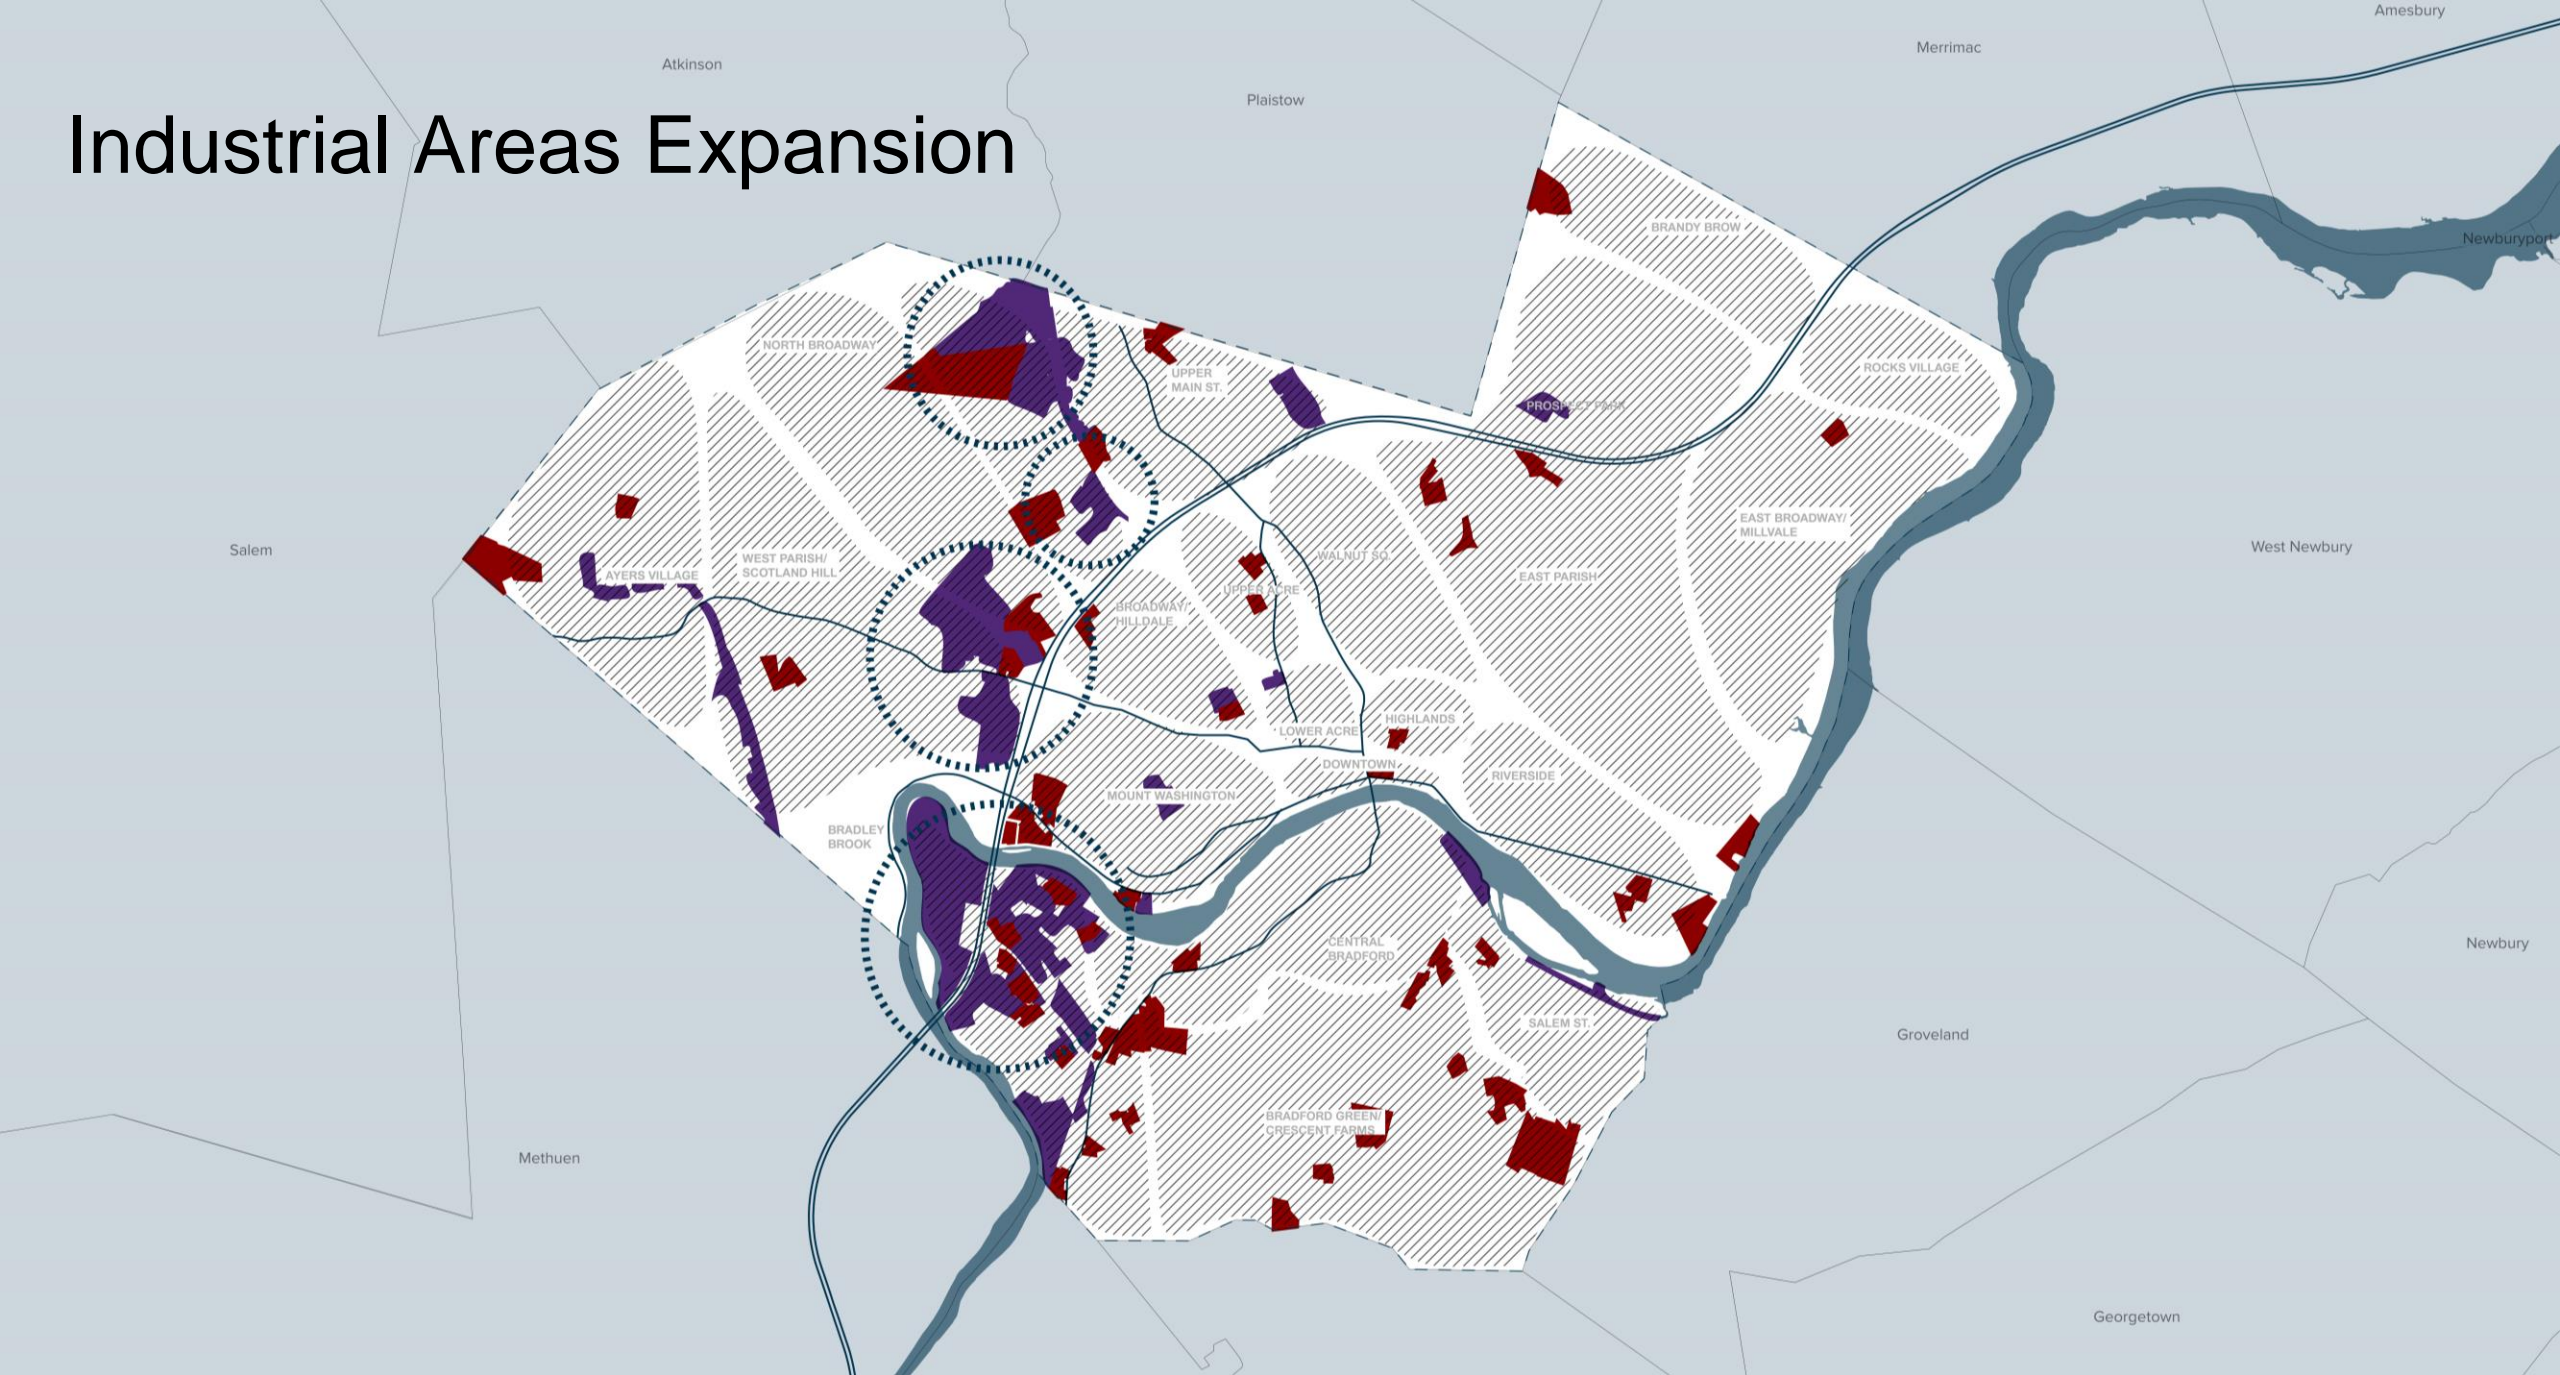

1. Generic Small Site (based on avg small site)
2. Generic Large Site (based on avg large site)

| Zoning Regulations | Existing Zoning | Test Fits |
|----------------------|-----------------------------|--------------|
| <u>Parking Ratio</u> | | |
| Industrial | 1 / 600 gsf to 1 / 1000 gsf | 1 / 1600 gsf |
| Commercial | 1 / 300 gsf | 1 / 500 gsf |
| Max Height | 50' | 85' |
| Min Green Space | 20% | 10-15% |
| <u>Setbacks</u> | | |
| Front | Min 40' | Max 10' |
| Side | Min 15' | Min 15' |
| Rear | Min 25' | Min 25' |

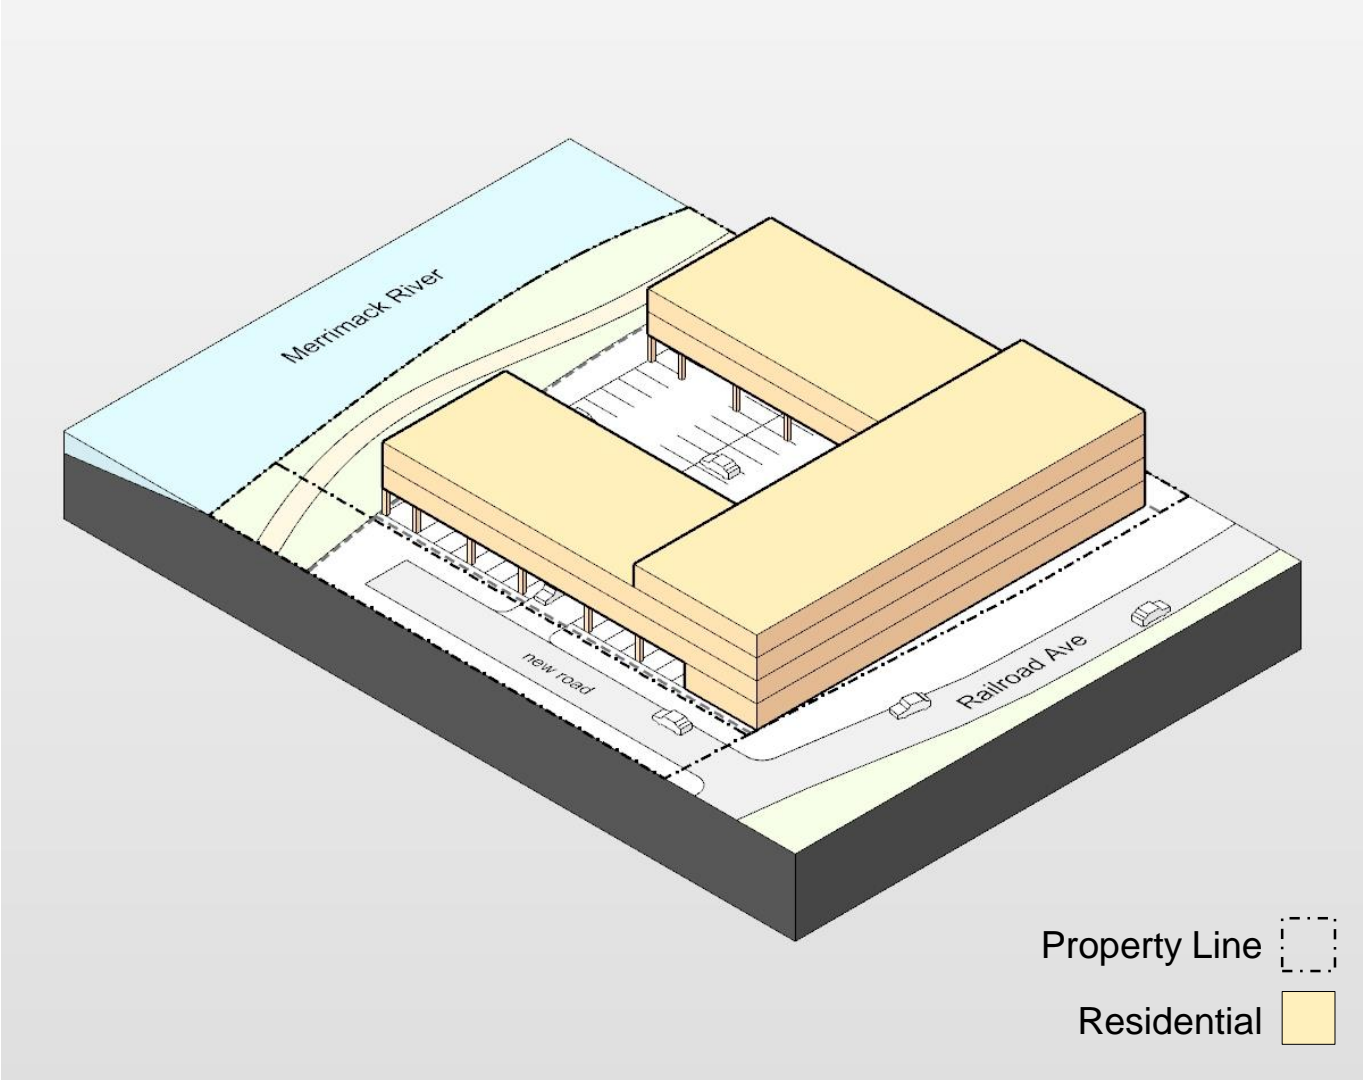

Note: Red indicates existing dimensional regulations that are exceeded in test fits

Industrial Areas Expansion

Transect Site - Scenario A

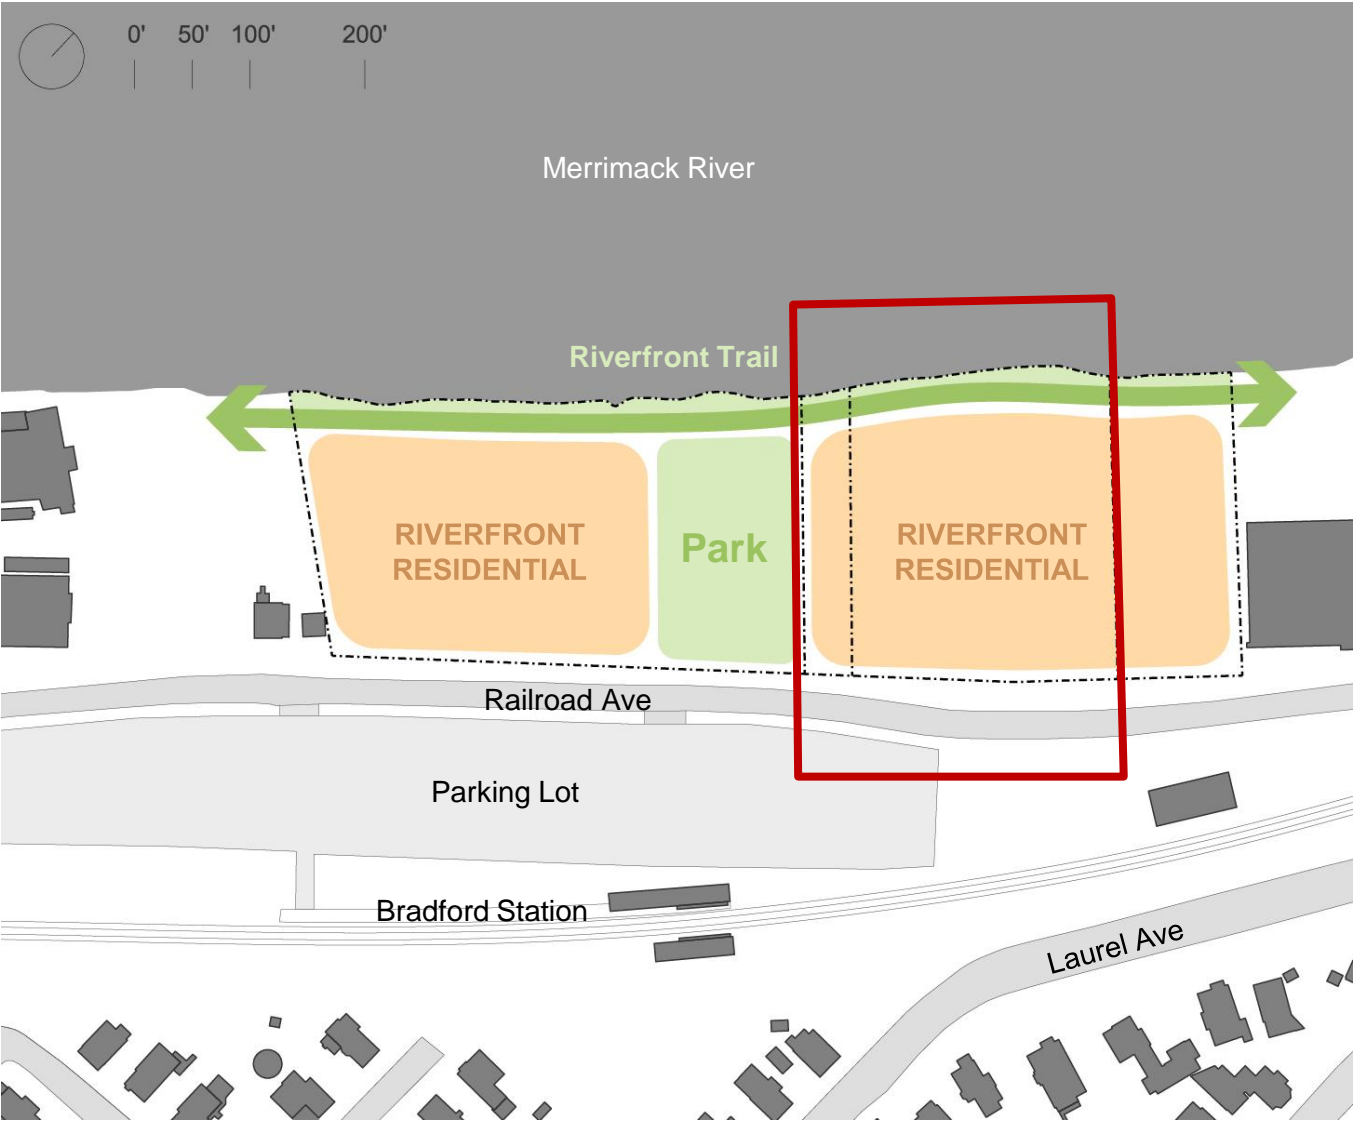

| Transect Site – Scenario A | Count |
|--|--------------------------|
| Residential GFA | 79,000 gsf |
| Total Units (based on 1100 gsf / unit) | 72 Units |
| Parking Required | 108 Spaces |
| Parking Ratio | 1.5 Spaces / 1-2BR Units |
| Height | 4 stories, ~46' |
| FAR (District) | 1.13 |
| FAR (Parcel) | 1.63 |
| Density (District) | 44 Units / Acre |

North Side of Railroad Ave Test Fits

Test-fit Site: Transect Site

| Zoning Regulations | Existing Zoning | Test Fits |
|---|-------------------|-------------------|
| Residential Parking Ratio | 1.5 Spaces / Unit | 1.5 Spaces / Unit |
| Retail Parking Ratio | 1 / 200 gsf | 1 / 200 gsf |
| Max Height | 74' | 74' |
| Easement setback from Merrimack | 15' min | 50' shown |
| No other dimensional regulations (§ 255-166: B) | | |

Old Paperboard Site Test Fit – Transect Comparison

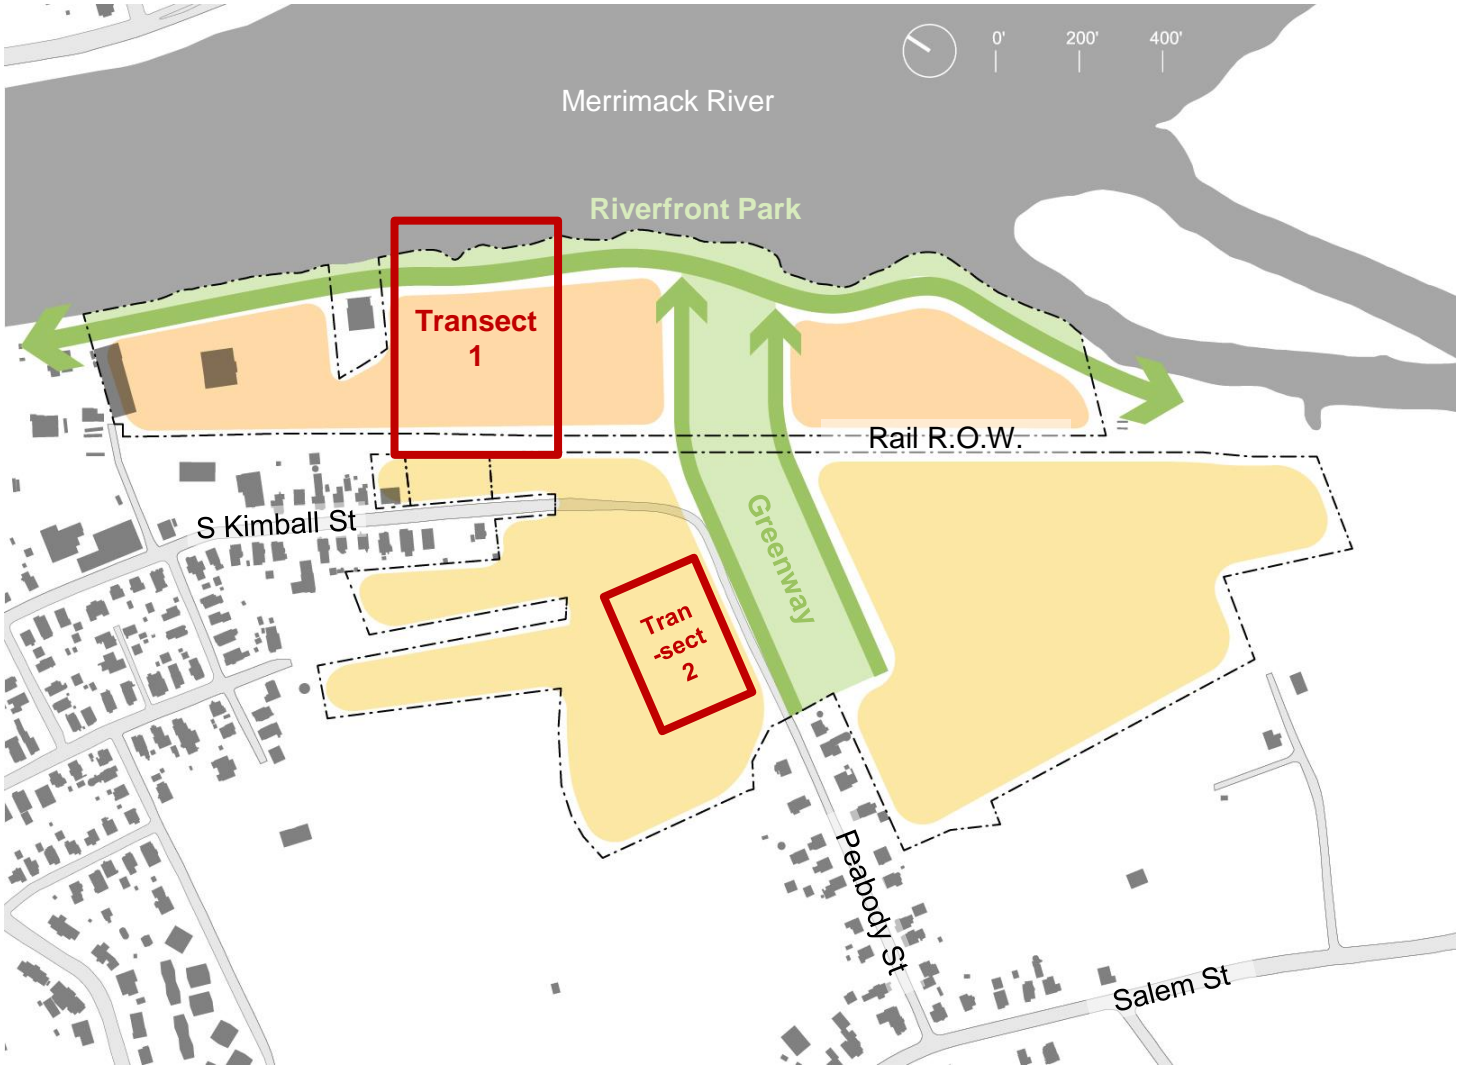

| Transect Sites | Riverfront Transect | Low-density R Transect |
|------------------------|----------------------------|------------------------|
| Height | 3 stories, 32' | 3 stories, 32' |
| Total Gross Floor Area | 71,820 gsf | 27,120 gsf |
| Total Units | 52 Units | 18 Units |
| Parking Ratio | 1.5-2 Spaces / 2-4BR Units | 2 Spaces / 3-4BR Units |
| FAR (District) | 0.43 | 0.28 |
| FAR (Parcel) | 0.73 | 0.40 |
| Density (District) | 13.5 Units / acre | 8.2 Units / acre |

Old Paperboard Site Area Transects

Test-fit Site: 1. Riverfront & 2. Low-Density R

| Regulations | WD-E | Test Fits |
|---------------------------|-------------------|-------------------------|
| Residential Parking Ratio | 1.5 Spaces / Unit | 1.5 - 2.0 Spaces / Unit |
| Max Height | 74' | 74' |
| Max Stories | 6 stories | 6 stories |
| Max FAR | 3.0 | 3.0 |
| Min Lot Frontage | 100' | 100' |
| Min Open Space | 20% | 20% |
| Setbacks | | |
| Easement from Merrimack | 15' min | 50' shown |
| Min Side Yard | 20' | 5' |
| Min Front Yard | 25' | 20' |
| Min Rear Yard | N/A | N/A |

Note: Red indicates existing dimensional regulations that are exceeded in test fits

Public Workshop

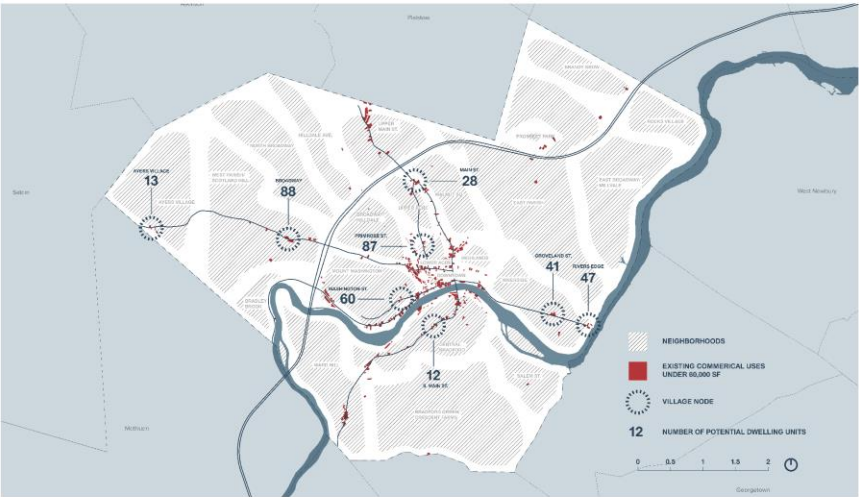

Schedule

- 6:00-6:15 – Check-In
- 6:15-6:25 - Remarks from Mayor
- 6:25-6:50 - Presentation
- 6:50-7:00 - Q&A
- 7:00-8:00 - Open House

Nodes

Scenario: Village Nodes

Locating 'Village Nodes' near commerical areas

The Village Nodes, shown in the map above and in the aerial images below, are distributed across various neighborhoods in Haverhill. The location of these nodes have been selected because they already coincide with emerging commercial development. In addition, the village nodes are already zoned within the current “CN” or “Commercial Neighborhood” district. This

scenario focuses residential and commercial development within these targeted nodes. The goal is to increase density and to emphasize walkability and contextually-sensitive buildings. In doing so, these Village Nodes can support a growing local economy and increased housing density while enhancing the daily experience of the city's neighborhoods.

How many dwelling units can the nodes absorb?

Scenario: Village Nodes

What could a Village Node look like?

Existing Node Conditions

While existing nodes do support commercial and residential uses, they are typically defined by low density development, single story retail buildings, and surface parking lots along the street.

Proposed Node Development

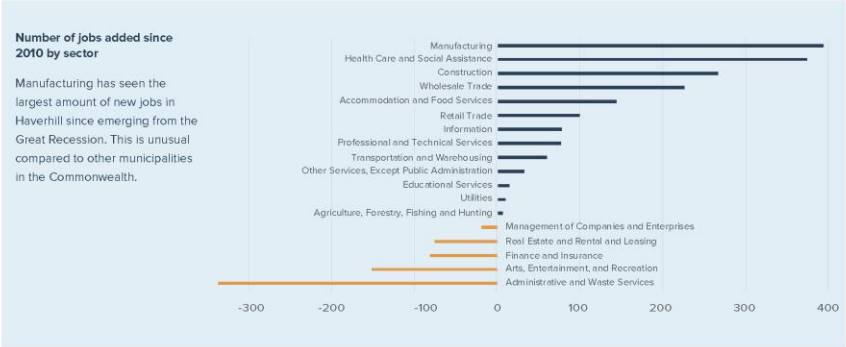

Densifying the village node allow a diversity of housing types (including townhouses and apartment buildings) as well as provide for additional ground floor retail space. Shifting parking to the rear and minimizing building setbacks enhances the streetscape and ultimately improves the walkability and experience of the Village Node.

Some examples - which do you prefer?

Industry

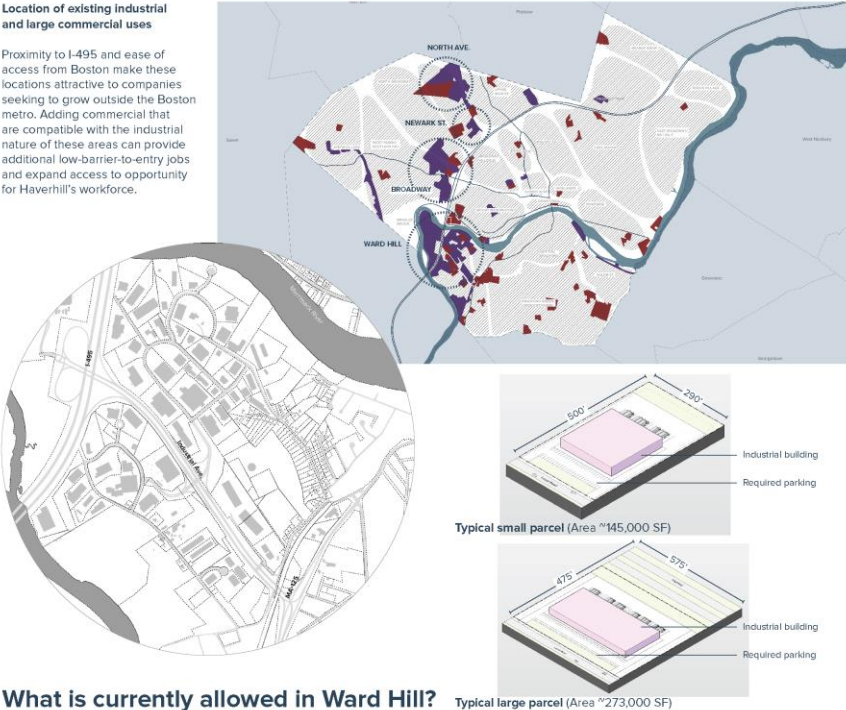

Industrial Growth

By densifying places where manufacturing uses are already allowed, Haverhill can become a regional leader for employment in this sector.

Location of existing industrial and large commercial uses

Proximity to I-495 and ease of access from Boston make these locations attractive to companies seeking to grow outside the Boston metro. Adding commercial that are compatible with the industrial nature of these areas can provide additional low-barrier-to-entry jobs and expand access to opportunity for Haverhill's workforce.

What is currently allowed in Ward Hill?

Scenario: Ward Hill Industry Park

What mixed industrial uses looks like on small sites?

Some examples: Which do you prefer for each density scenario?

Topics

Economy

Place a Green Dot ● If you AGREE with this Initiative or a Red Dot ● If you DISAGREE

Access to Opportunity: Create opportunities that allow Haverhill residents to work near where they live, and ensure that residents can get the training needed to contribute to the regional economy.

| | | |
|---|--|--|
| Encourage additional partnerships with Northern Essex Community College | Partner with NECC and other regional institutions to grow work opportunities in STEAM (Science, Technology, Engineering, Arts, and Mathematics). Work with these organizations to perform outreach to employers who might relocate here. | Entrepreneurial training |
| UMass Lowell – activate their new waterfront campus with classes, etc. | | Undertake targeted business recruitment efforts to attract companies offering low barrier-to-entry jobs and job training opportunities |

City Revenue & Jobs: Expand the city's tax base and promote the creation of jobs in the core sectors of Haverhill's economy, including Haverhill's growing industries.

| | | |
|---|---|--|
| Densify the city's existing industrial and business parks to create new employment opportunities and additional tax revenue | Create a robust infrastructure to grow Haverhill's innovation economy through active recruiting, local workforce training, shared working spaces, skill-sharing, etc. | Actively solicit large companies getting priced out of the Boston metro region by marketing the competitive advantages of locating in Haverhill. |
| Revise zoning to allow industrial development that contain a mix of retail and commercial uses on upper floors. | | |

Location: In addition to supporting Haverhill's business parks, encourage the creation and growth of businesses that strengthen Haverhill's neighborhoods.

| | | |
|--|--|---|
| Create tools and resources to support homegrown businesses and small businesses choosing to locate in Haverhill, including start-up funding, storefront improvement programs, technical assistance programs, streamlined permitting, etc | Implement a vacant storefront tax ordinance to compel property owners into seeking suitable tenants. | Create affordable retail by requiring large developments downtown to provide spaces of 1,000-1,200 SF on their ground floor |
| | Continue to support cultural and local initiatives. | Invest in the preservation of existing affordable commercial space. |

Open Space, Natural Resources & Environment

Place a Green Dot ● If you AGREE with this Initiative or a Red Dot ● If you DISAGREE

Town & Country: Balance the protection of Haverhill's environmental assets and scenic areas with growth in targeted places.

| | | |
|--|--|--|
| Encourage additional partnerships with Northern Essex Community College | Partner with NECC and other regional institutions to grow work opportunities in STEAM (Science, Technology, Engineering, Arts, and Mathematics). Work with these organizations to perform outreach to employers who might relocate here. | Entrepreneurial training |
| Undertake targeted business recruitment efforts to attract companies offering low barrier-to-entry jobs and job training opportunities | | UMass Lowell – activate their new waterfront campus with classes, etc. |

Riverfront: Protect the river as a natural resource, and enhance the riverfront for resident use and tourist destination.

| | | |
|---|--|--|
| Partner with local organizations, and regional and state agencies to provide new open spaces on the riverfront that reduce stormwater risk and promote cultural activities. | Build on ongoing efforts to activate both sides of the riverfront to strengthen connections to neighborhoods and the downtown. | Preserve and protect Haverhill's streams, watersheds, and especially our surface pond water resources. Comply with EPA and DEP requirements for municipally based discharges into the Merrimack River. |
| Support new jobs and housing along the riverfront. | | |

Sustainability: Achieve citywide carbon neutrality by 2050 and adapt city infrastructure to prepare for climate change

| | | |
|---|--|--|
| Adopt a community choice energy program, to more quickly transition to the use of GHG-free electricity. | Revise parking requirements to reduce the minimums for new development and renovations. | Using new mapping technology, re-assess the location of wetlands and critical aquifer recharge areas |
| Transition to zero-net carbon new construction by 2030. | Investigate and test innovative septic systems that can support the creation of new affordable housing | Increase tree canopy on both public and private property |
| Retrofit and electrify X (80?) % of existing buildings by 2050. | | Conduct a resilience vulnerability assessment to understand the risks posed to Haverhill neighborhoods |

Topics

Housing

Place a Green Dot  if you AGREE with this initiative or a Red Dot  if you DISAGREE

Affordability: Ensure that housing is accessible to all who want to live in Haverhill, through existing as well as income-restricted affordable units.

| | | |
|--|---|---|
| Strengthen the inclusionary housing policy and make it mandatory for projects of 10 units or more | Grow the City's first time homebuyer assistance program and expand it citywide | Harbor Place II -- encourage housing development that is >50% affordable. (per Dougan?) |
| Encourage the development of middle- and moderate-income housing for those between 60%-120% of the AMI | Develop additional senior housing units to meet the needs of the growing senior population. | |

Supply: Increase the amount of housing to encourage walkability and embeds civic and commercial activity within neighborhoods across the city.

| | | |
|--|--|--|
| Incentivize production of housing within ten-minute walking distance of commuter rail. | Allow low-density multi-family housing in low-density residential zoning districts (RR, RL, RM) | Create a "missing middle" pilot program / zoning district to assess the feasibility and demand for new residential types that right-sized for Haverhill's changing demographic |
| Change zoning to enable higher densities of housing by right in targeted areas. | Leverage State resources (such as Housing Development Incentive Program) to increase the production of market rate multifamily housing | |
| Identify locations and incentive strategies to create more senior housing | | |

Diversity: Provide a variety of housing options for individuals, families, and seniors at different socioeconomic levels.

| | | |
|---|--|---|
| Explore options to add "missing middle" housing and accessory dwelling units. | Invest in resources that help the elderly to age in place, such as such as public transportation subsidies, real estate tax abatements, programs for retrofitting existing units, etc. | Ensure that all new housing is built to meet ADA (Americans with Disabilities Act) and Universal Design standards to accommodate people of all ages and abilities |
| Incentivize multifamily housing with mix of unit sizes. | Create and maintain an inventory of publicly owned land and assess its suitability for new affordable housing | |

Transportation & Mobility

Place a Green Dot  if you AGREE with this initiative or a Red Dot  if you DISAGREE

Walkability: Shape the form, use, and design of streets and buildings to support an active public realm accessible by community members of all ages.

| | | |
|--|---|---|
| Support pedestrian and bicycle-friendly streetscape design projects. | Implement signage and storefront regulations on commercial corridors and retail clusters. | Support and/or develop a city-wide transportation network easily accessible to seniors. |
|--|---|---|

Transit: Maximize the potential of the commuter rail's connections to the metropolitan region.

| | |
|---|--|
| Facilitate increased housing and job centers within walking distance of the commuter rail and other public transit options. | Develop a systemic solution for parking and establish a clear plan for the future use and replacement of the existing Goecke Parking Deck. |
|---|--|

Multimodal: Expand access to non-vehicular transportation options, to walk and bike safely and mitigate traffic.

| | |
|---|--|
| Connect sections of regional bicycle routes and improve the city's existing bicycle lane network. | Explore implementation of bicycle share, car share, and shuttle services as well as other emerging transportation technologies to improve options for residents to travel throughout the city. |
|---|--|

Topics

Cultural & Civic Resources

Place a Green Dot ● If you AGREE with this initiative or a Red Dot ● If you DISAGREE

Downtown: Capitalize on the vibrancy of downtown and create opportunities for events, programming, and public art.

Support pedestrian and bicycle-friendly streetscape design projects.

Implement signage and storefront regulations on commercial corridors and retail clusters.

Support and/or develop a city-wide transportation network easily accessible to seniors.

Recreation & Leisure: Create places where residents and visitors can not only live and work, but also play.

Facilitate increased housing and job centers within walking distance of the commuter rail and other public transit options.

Develop a systemic solution for parking and establish a clear plan for the future use and replacement of the existing Goecke Parking Deck.

Infrastructure: Ensure that city services have the capacity to meet the needs of Haverhill's growing population.

Prioritize sidewalk repair in communities that have historically received less capital investment.

Prioritize retrofits in buildings that serve public purposes
